

WILLIAMS

METAL FABRICATIONS

Going above and beyond in metal fabrication.

Who We Are

Williams Metal Fabrications has worked in the metal fabrication industry since 1998. Long-standing clients include some of South Australia's largest defence, utility, mining, marine, civil and construction companies, and we've worked on many of the region's largest infrastructure projects.

Services & Solutions

- Metal fabrication
- Robotic welding
- Project management
- Installation and onsite welding
- Labour hire
- Commercial vessels and operator hire
- Crane truck and operator hire
- Telehandler and operator hire
- 3D site scanning and steel detailing
- Site maintenance
- Shed installation

We specialise in custom solutions. We love tricky projects. And we always over-deliver.

Machinery & Workshop

Our northern Adelaide workshop has a manufacturing area of 2,380m² and a large lay-down area. It includes a wide range of essential machinery:

- Welding robot
- 16 tonne telehandler
- 2x 10 tonne overhead cranes
- 2x 5 tonne overhead cranes
- 2 tonne overhead crane
- 5.8 tonne crane truck
- 3.5 tonne and 2.5 tonne forklifts
- Rough terrain scissor lift
- Skid steer loader
- Mobile diesel welders and generators
- Thread cutting machine
- Bending machine
- Much more that enables bespoke fabrication

A 5.8 tonne crane truck and 16 tonne telehandler, along with certified operators, are also available for hire – especially beneficial when site access and unloading is difficult.

Marine Solutions

We can carry out on-site welding and repairs – both on land and on water – via our commercial work boats and certified operator. Our tough aluminium boats are 6.2m and 7.3m in length and offer exceptional stability and load capacity, and can operate in extremely shallow water.

We stretch the boundaries of what can be achieved, no matter what a project or client requires.

What we do for you

Solve Your Problems

We're hands-on with all of our clients, often coming up with design solutions to your most complex problems. Even other metal fabricators sometimes partner with us when they get stuck.

Give You Peace of Mind

We're certified with a fully Integrated Management System (including quality, environmental and safety management), Construction Category 3, and ISO 3834 Welding Management.

Cover Your Needs

We are one of only a few aluminium metal fabrication companies in SA offering design, fabrication and installation as well as contract services such as labour hire, boat, crane truck and telehandler hire.

Give You The Best

Our people are the best in the industry, including boilermakers, welders and riggers, many with elevated work platform licences, as well as crane, telehandler and boat licences. We invest in our people, so we can deliver outstanding services.

Make You Look Good

We know you're under pressure to deliver your project, and you need rapid and flexible support. Our workflow is organised to allow us to prioritise urgent jobs, while keeping all of our clients on track.
